

**UNIVERSITA' DEGLI STUDI DI FIRENZE**  
**SCUOLA DI SCIENZE DELLA SALUTE UMANA/SCHOOL OF HUMAN HEALTH SCIENCES**  
**CORSO DI LAUREA IN MEDICINA E CHIRURGIA/ DEGREE IN MEDICINE AND SURGERY**  
**A.Y. 2024/2025**

Insegnamenti (courses) consist of theoretical classes during which professors teach medical subjects, and do NOT feature clinical rotations. At the end of each semester, students are tested during exam sessions.

#### Rules for clinical rotation at Hospitals

All students who want to attend an internship period, are requested to firstly attend a two days course on "Safety and Health in workplaces", with final exam. This course is mandatory to be allowed to start the internship, together with some blood test and medical examination (for free) to do upon the arrival, in order to obtain the medical certificate to perform an internship activity in our School.

Since Courses and clinical rotations are scheduled and assessed separately, it is not mandatory to attend a clinical rotations for each Insegnamento that is listed on the Learning Agreement for Studies, and vice versa. Clinical rotations are assessed with a giudizio di idoneità (pass/fail evaluation); ECTS credits are awarded only on condition that the clinical rotation is assessed with an ID-Idoneo (pass) evaluation.

Clinical rotations are subject to the availability of our teaching hospitals, and they are scheduled on a "firstcome-first-served" basis according to the date and time on which we receive your final Learning Agreement for Studies signed and stamped for approval by your home University. Pediatria could be at Prato's Hospital.
