

Faculté de médecine LYON EST

At the Faculty of medicine Lyon EST, ERASMUS and exchange students' education alternates between 6 weeks of classes and 6 weeks of internships in different hospitals, members of the Hospices Civils de Lyon, in various departments (see p.4).

Students can pick courses from 4th (DFASM1) and 5th (DFASM2) year (listed p.2-3)

Theoretical courses

- **All courses are taught in french**, so students are required to have at least a **B2 CECRL level**.

French intensive courses can be given in late august during one week (3 ECTS) or throughout the year, every thursday night (3 ECTS).

- Students can attend courses from **both 4th and 5th year** of medicine studies.

Students have access to their schedule once they are fully registered.

All informations regarding their education is published throughout the year on <https://sides.uness.fr/>.

For each year (4th and 5th), courses and practices are **divided into two groups** : Group 1 and Group 2. Both groups alternate between courses and traineeships. While Group 1 is practicing at the hospital, group 2 is following courses at the faculty, and conversely. Students can choose their group when applying.

Courses are divided into two kind of instruction :

- **Enseignement Dirigé (ED)** : supervised teaching, in small groups of students (usually 35/group)
- **Cours magistral (CM)** : Lecture course, with all students.

Students can choose one year or the other in **principal year of study**.

For example, if a student chooses the 4th year as principal year of study, but also chooses to pick some courses from the 5th year, they will have to participate in all of the CM chosen, but it will be mandatory for them to only go to their principal year's EDs.

Exams

There are two types of exams :

- Examen en contrôle continu (CCE) : midterm exam (mandatory for all chosen courses).
- Contrôle Terminal : final exam (mandatory for all chosen courses).

The grade obtained through the final exam counts for 2/3 of the final grade given to the student.

Traineeships

Exchange students, as well as local students, participate in 6 week full-time traineeships in different hospitals' departments (listed p.4).

When applying, students make 5 wishes of departments for each semester and the administration will assign them to departments according to the places available.

Please note that the Gynecology-Obstetrics and Pediatrics departments are often full, students are not guaranteed to secure their wish in those wards.

Once the assignments are made and sent to the students, no changes will be allowed or made.

DFASM 1 : Diploma of Advanced Training in Medical Sciences

- 4th year of 2nd cycle of medicine studies

First semester : from september to january

Continuous assessment in december, terminal exam in february.

TEACHING UNIT	NUMBER OF HOURS	EXAMS	ECTS
Cardiology	41 hours	1 EKC/CCE (1 hour) + Terminal exam	6 ECTS
Pneumology	28 hours	1 EKC/CCE (1 hour) + Terminal exam	4 ECTS
Endocrinology-Nutrition	29,5 hours	1 EKC/CCE (1 hour) + Terminal exam	4 ECTS

Second semester : from January to June

Continuous assessment in may, terminal exam in june.

TEACHING UNIT	NUMBER OF HOURS	EXAMS	ECTS
Hematology-Oncology	22 hours	1 EKC/CCE (1 hour) + Terminal exam	3 ECTS
Infectious diseases	64 hours	1 EKC/CCE (1 hour) + Terminal exam	9 ECTS
Dermatology	20 hours	1 EKC/CCE (1 hour) + Terminal exam	4 ECTS
Immuno-Rhumato - Orthopedics	35 hours	1 EKC/CCE (1 hour) + Terminal exam	5 ECTS

DFASM 2 : Diploma of Advanced Training in Medical Sciences - 5th year of 2nd cycle of medicine studies

First semester : from september to january

Continuous assessment in january, terminal exam in february (oral).

TEACHING UNIT	NUMBER OF HOURS	EXAMS	ECTS
Nephrology-Urology	50 hours	1 EKC/CCE (1 hour) + Terminal exam	6 ECTS
Hepato-Gastro-Enterology	45 hours	1 EKC/CCE (1 hour) + Terminal exam	6 ECTS
Neurology	38,5 hours	1 EKC/CCE (1 hour) + Terminal exam	4 ECTS
Disability and Aging	16 hours	1 EKC/CCE (1 hour) + Terminal exam	3 ECTS

Second semester : from January to June

Continuous assessment in may, terminal exam in june.

TEACHING UNIT	NUMBER OF HOURS	EXAMS	ECTS
Gynecology-Obstetrics	49 hours	1 EKC/CCE (1 hour) + Terminal exam	8 ECTS
Psychiatry	39 hours	1 EKC/CCE (1 hour) + Terminal exam	5 ECTS
Pediatrics	35 hours	1 EKC/CCE (1 hour) + Terminal exam	4 ECTS
ENT - Ophtalmology - Stomatology	23 hours	1 EKC/CCE (1 hour) + Terminal exam	4 ECTS

Traineeships in the Hospices Civils de Lyon

When applying, ERASMUS and international students make a list of all the departments they're interested in, in terms of traineeships.

They can do **up to 3 traineeship of 6 weeks each**, per year. They can also attend to a 4th optional traineeship that'll last 8 weeks.

These traineeships take place during specific periods (see enclosed).

As for next year 2022/2023, students from **group 1** will start the **first semester with courses**, and students from **group 2** will start the **first semester with a 6 week traineeship**.

Rotating with the 6 weeks periods of courses* :

1 validated traineeship = **10 ECTS**

A1 - AUTOMNE 1 : from 13/09 to 22/10/21

A2 - AUTOMNE 2 : from 25/10 to 03/12/21

H1 - HIVER 1 : from 06/12/21 to 14/01/22

H2 - HIVER 2 : from 17/01/22 to 25/02/22

P1 - PRINTEMPS 1 : from 28/02 to 08/04/22

P2 - PRINTEMPS 2 : from 11/04 to 20/05/22

Optional 8 weeks traineeship, if wanted (12 ECTS):

E1 - ETE 1 : from 23/05 to 15/07/22

E2 - ETE 2 : from 18/07 to 09/09/22

**Yet to define for 2022/2023*

The administration **assigns students according to the list established by the students when applying**.

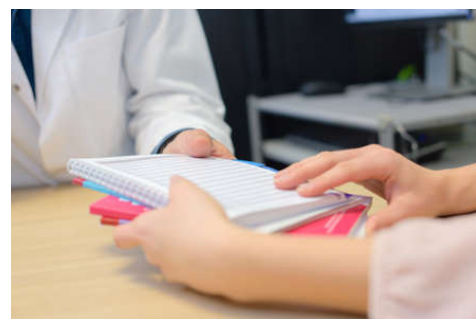

As soon as assigned, students can contact the head of hospital service and their secretary to get informations related to the schedule or equipment to bring.

At the end of each traineeship, the student gets delivered an **evaluation form**, allowing us to know **whether the traineeship has been validated or not**.

If validated, the student gets 10 ECTS more in his Transcript of records.

The available departments are listed below :

- ENT
- Hematology
- Pediatrics
- gynecology and obstetrics
- radiology
- psychiatry
- dermatology
- Emergency
- Surgery
- Internal medicine
- Ressuscitation
- Geriatrics and palliative cares
- ophtalmology
- cancerology
- endocrinology
- pneumology.
